

50:50 Draw Data Protection Policy

updated April 2018

- All data held is held on behalf of Kennington Youth Club (also sometimes known as Kennington Venture Club), by those appointed by the committee to run the 50:50 draw for the youth club.
- The data held will only be available for the youth club, in both electronic and paper form, to the people the committee has appointed to the roles of: Draw Administrator, Treasurer and Draw Overseer. The names of the people currently holding these roles can be obtained by emailing kycdraw@gmail.com or writing to our treasurer. Personal data will be available to no one else within the youth club.
- Non-personal data (winning ball numbers and prize amounts) will be freely used for advertising and communications about the draw.
- The financial data may be processed by our and your bank, in respect of cheques and standing orders.
- Your data, or part of it, will also be held electronically by our mail servers (gmail) and on the computers and backups of the three people designated to process the information by the youth club committee.
- The data collected will only be used to determine and distribute winnings, to provide any updates about the draw and your tickets, and (if you opt in) to provide a termly newsletter about the activities of the youth club.
- Consent to hold and process your data, including the right to be forgotten, may be withdrawn at any time by emailing kycdraw@gmail.com or writing to our treasurer. We will then expedite the request as quickly as possible and confirm in writing (either electronically or via paper communication) both that the request has been received, and when we have completed the processing.
- If you ask for us to remove data that we hold about you, we will have to terminate your participation in the draw as we would have no means of providing the prizes and as such will return any outstanding money paid for the draws you would not then be part of via cheque to the postal address we held for you.
- We are committed that we will keep our data protection policy under review and refresh them if anything changes.
